# CHELMSFORD High School

**1984** — Negative Utopia — not in Chelmsford, not by any means. We are hopefuls against war, slavery, and ignorance; we are strivers for peace, freedom, and strength. Chelmsford High School students are the positive dimension of George Orwell's **1984**; we are the affirmation! The year 1984, we salute you: "to the future or to the past, to a time when thought is free, when men are different from one another and do not live alone — to a time when truth exists and what is done cannot be undone . . . greetings!"

The students at Chelmsford High School candidly participate in various aspects of education, inclusive of truth, plenty, peace, and love: the Ministry of Truth involves the students' search for awareness and understanding; the Ministry of Plenty involves the students' application of resourceful knowledge; the Ministry of Peace involves the students' efforts to eliminate hostilities within themselves; the Ministry of Love involves the students' desire to develop harmonious relationships. Throughout the day, the students experience each dimension to discover their actualized education. In 1984, Chelmsford High School is "a place where there is no darkness . . ."

## DEDICATION

No senior class can have a successful year without good guidance. They need someone who understands the importance of senior life, someone who wants to make their last year special, memorable. That unique person is needed to inspire enthusiasm and then direct that zeal in constructive activities. The Class of 1984 is most fortunate to have two such people — Mrs. Anne O'Bryant and Mr. Dick O'Donnell. Having guided these students for three years, they have become more than advisors — they are truly members of the class. They have accompanied the students to dances, beaches, mountains, distant cities, and foreign countries. It is with enormous gratitude and affection that the Class of 1984 dedicates its yearbook to Mrs. O'Bryant and Mr. O'Donnell.

**ENTHUSIASM** (ĕn-thoo'-zē-ăz'ĕm, in) n. 1. a. Rapturous interest b. ardent fondness or eagerness; zeal 2. A subject or activity that inspires a lively interest.

The spirited seniors are full of enthusiasm. They are committed to making their last year at Chelmsford High School one that is exciting and rewarding. They have attended school functions with a liveliness that has animated their class spirit. They have participated in special senior events that have molded wonderful memories: ski trips, shopping in New York City, vacationing in Quebec, senior week. They have brought to life their dreams of senior year. They have been a role model for other classes to follow. They will graduate, knowing that the Class of 1984 made an impact on Chelmsford High School.

1984

The 1984 Lion contains the fond memories of our three years at Chelmsford High School. As I write this message, I am reflecting upon all the good times we have had together. The Lion captures and preserves these times. Upon every opening of this yearbook, memories will be set free and come alive. The three years we have spent together at Chelmsford High School will never leave us. The spirit and unity of this class will live long after June 3, 1984.

I thank our class advisors, Mr. O'Donnell and Mrs. O'Bryant; the class officers, Paul Arenstam, Sara Coffey, and Erin Sheehy; and every member of the senior class for making this a fantastic year. You are all the greatest! Chelmsford High School has given us the foundation upon which we shall build the rest of our lives. It is now up to us to reach our individual goals. I wish every one of you great successes.

Always remember the Class of 1984, the friends with whom you shared your high school years.

Stuart Barwise  
Senior Class President

## Senior Class Officers and Representatives

Back Row, L to R: N. Russell, L. Godek, K. Daley, K. Flynn, Front Row, L to R: P. Arenstam, N. Hallal, D. Pepper, S. Coffey, N. Donahue. Advisors, Mr. O'Donnell and Mrs. O'Bryant.

The senior class officers and representatives are an integral part of the Class of 1984. Both the officers and representatives organize social activities and class fundraisers. The main goals of this elected group are to promote class unity and spirit. Acting as leaders for the entire senior class is a responsibility that requires much time and effort. The officers do most of the pre-organizational planning for class events, and, in a sense, are the administration for the seniors. Working in conjunction with the officers are the representatives, who publicize and organize the final stages of the events. These unselfish, hard-working groups successfully join together, always keeping in mind the varied interests of the entire senior class.

A silent thought, a secret tear,  
a constant wish that you were here.  
Never forgotten.  
For to live in the hearts  
of those we leave behind  
is not to die.

Formerly our classmate,  
forever our friend.

submitted by Dawn Cady

MICHAEL NAPLES

Your name, alone, reminds us  
of good old days gone past.  
To ease the pain your leaving made  
we were forced to grow up fast.

We can't be sad, but we have cried.  
We came together when you died,  
because you touched so many lives.  
Your smile and laughter may only be  
just echoes in our minds, but  
there's still a place for you inside.

Your voice is quiet in our hearts,  
and your love will be remembered.  
We will take it with us through our lives  
and keep it all forever.

S.A.D.D.ly missed,

Friends

Jennifer Beals models her flashy sweats.

Many of us hope for success. It does not come easy, though. We have to work hard to achieve it. Success begins with a dream and grows with imagination. In 1984, many people have made their dreams come true. There have been a numerous amount of successes in the theater, an outstanding one being the movie "Flashdance". Jennifer Beals not only performed creatively, but she also began a fashion trend. Her unusual technique of dancing was imitated, and ripped sweatshirts became everyday apparel. Jennifer Beals' styles will long be remembered, even after our muscles are too brittle to flex and our sweatshirts are outgrown. One of the most outstanding television movies this year was M\*A\*S\*H.

The final two-hour episode was watched by millions of people. Although the break-up left fans sad, this episode was a smash. M\*A\*S\*H will be remembered as one of the greatest series ever.

A very successful musical figure was Michael Jackson. His "Thriller" excited the music world. The video "Beat It" displayed his talent as a skillful dancer. Michael Jackson had many hits that provided hours of listening and dancing pleasure for today's youth.

There were also many hit songs which have left their imprint. Def Leppard's "Pyromania" hit the charts as did the Police's "Synchronicity" album. Culture Club, ZZ Top, and Van Halen also reached the charts with outstanding results.

M\*A\*S\*H was a smash television series.

Thriller, Michael Jackson

# GOOD

Impressive sports figures became topics of discussion, also. Carl Yast-zemski retired after twenty-three years of baseball. Not only does he hold the record for most games played, but he is the only American Leaguer to have 400 home runs and 3000 hits. He is now rocking on his laurels. Other sports personalities who achieved great success are Kitty and Peter Carruthers. All viewers experienced a sense of pride as the sister and brother figure-skating pair earned a Silver Medal at the Winter Olympics.

A famous politician whose name will be in history books, of course, is President Ronald Reagan. He began as an actor and was elected Mr. President. His "Reaganomics" became a new word in the political dictionary. Two major changes that took place were

his increase in the military budget and his cut-backs in social programs. His choice to run for re-election surprised no one. As for the outcome of the 1984 election . . . who knows?

A 1984 heroine was Sally Ride. She accomplished a great feat by being the first woman to travel in space. Her maiden voyage was in "Challenger", a unique space shuttle. Sally displayed great courage, as did her male comrades.

These peoples' dreams came true, so why can't yours? George Orwell stated that one's future is " . . . only his own secret imaginations, founded on a dream." If you strive hard enough to achieve a goal, you can be successful, too! You have all that is necessary to start — just begin with a dream and make it come true.

The fans figured that this ice skating pair, Kitty and Peter Carruthers, would bring home a medal.

Yaz is a real hit on his final day.

Sally Ride's spacious smile is an inspiration.

Will President Reagan be ceded in the next election?

There she is, Miss America!

No one was at liberty to predict the winner.

Many things happen in our lives for which we have no control. We must take the bad with the good, developing a balance between the two that allows us to cope.

One of the hardest aspects to accept about life is death. Perhaps it is because the timing is not always appropriate or reasonable. At thirty-two years old, Karen Carpenter's voice was as delicate as a songbird. But she suffered from anorexia, a disease that became fatal for her. Still, her music teaches that each person should live life to the fullest, that each new day is a new beginning. Listening to her music on the radio is a reminder that man is a mortal being, even if it is untimely.

Another aspect of life that is difficult to accept is losing. The twelve meter race for the World Cup, between the Liberty and the Australia II, demonstrated this. It was impossible to predict who would win until the very last meter of the race. The Liberty, unfortunate for the United States, lost. But they only lost the cup! What they

gained throughout the race was suspense and excitement. The spirit of competition brought cheers from the crowds. Sure the Liberty lost the race, but the crew and the spectators had a wonderful opportunity to become involved in an adventure. This situation helped to put in perspective our need for good sportsmanship versus our need to win. Congratulations, Australia III! Thank you, Liberty!

One of the more devastating aspects with which our society must deal is nuclear war. The made-for-television movie, *The Day After*, portrayed visions of such an event. ABC attracted millions of viewers by airing the show. Although the movie was only a simulated situation, it left a feeling of horror among those who watched. Reading about Hiroshima and Nagasaki is not as effective as seeing our town and our families being killed in a nuclear holocaust. Let's hope that the Nuclear Arms Race does not become a race to the finish!

We will all be skeletons in our own closets if the Nuclear Arms Race is not halted.

Have we only just begun?

David Niven died at 73 years old, long

The sky is smoked with missiles of doom.

# BAD

There are certain devastating events which we will never forget. The downing of KAL Flight 007 was one of them. Two hundred and sixty-nine passengers were killed on this Korean Airline. This occurred one dark, September morning; it will leave the lives of many families in darkness forever. After the crash, 100,000 people assembled in a Seoul stadium to mourn the dead. Whether the pilots of the Korean airliner had unintentionally strayed or whether the Soviets were trying to create an international incident makes no difference to the people who lost their loved ones. This event caused much controversy, one, perhaps, which will never be solved. Another incident which caused disruption was the invasion of Lebanon and Grenada. The Soviets were building an airstrip in Cuba. President Reagan saw this as an attempt to infiltrate communism into Latin American countries. There were 5000 Cuban soldiers present at the time that President Reagan ordered U.S. troops to destroy the airstrip. Eight American soldiers gave their lives. Some say it had to be done; others insist Reagan acted hastily. No one can predict the future, and no one can change the past. There is still great tension between the United States and these foreign countries. How many more lives must be sacrificed in the quest for peace?

We have had our share of bad times. George Orwell implies that 1984 is a time of disagreement, quarrel, and mental conflict. He also provides a remedy for our ills, "... to sign a pact of friendship with the rivals and remain on peaceful terms for so many years ..."

This woman cries for the souls of those downed in the Korean Air Lines 747.

What was expected to be a plain ride turned into a nightmare.

Whole troops suffer when one soldier is injured.

Flagged with grief, these soldiers provide honor as they guard their dead comrades.

Brothers and sisters in a family of millions: Thanks to computer technology, the first toy of the postindustrial age

Oh, you dolls, you great big beautiful dolls!

A face only a mother could love!

King Kong was ugly, and he made it to the top!

Beauty is in the eyes of the beholder.

If beauty is in the eyes of the beholder, then it must also be so for ugliness. But are all things that are displeasing to the eye necessarily ugly? Of course not! In 1984, some of the most unsightly characters aroused a great deal of delight.

Homely, awful, just plain ugly — this describes the Cabbage Patch Kids. Yet, they were the most successful selling toy during the Christmas season. They came complete with their own adoption papers. Small riots were started at stores which stocked them. Mothers stood in lines for hours. Grandmothers fought one another. All this so a precious little girl could receive one of these limited-supply dolls for Christmas. What makes these stuffed babies so desirable? There is a human quality about them. They are not fashionable, like Barbie and Ken, and they do not walk, talk, eat, or drink, like Baby Alive. These dolls have a huggable sense, though, and they express it. They give children a chance to respond lovingly to faces and features that are very strange from their own. They have shown children that being different is not ugly.

Another successful ugly is Boy George. He is the lead singer of Culture Club. He wears more make up than most girls do, and his taste in clothes leaves much to be desired. Nevertheless, his songs are hits. "Do You Really Want to Hurt Me" and "Karma Chameleon" are two songs which hit the top of the charts. He is a definite inspiration for people who do not fit the Miss or Mister America mold.

Ronald Reagan, lending a hand or two!

One person who has capitalized on her plain appearance is Joan Rivers, a successful comedienne who, this year, received Harvard University's Hasty Pudding Award. She pokes fun at her homely face and body. Audiences applaud her because most of them can identify with at least one of the physical flaws that Ms. Rivers jestfully criticizes. She encourages people to laugh at themselves, enjoying that they are not perfect beings. Another not-so-perfect character who has clawed his way to the top is Garfield. He is a bug-eyed and overweight cat. But his features have been interpreted as dreamy and cuddly. He has worked his way into the hearts of young and old. He is pictured on posters, mugs, school supplies, license plates, and comic strips. His antics have made him a favorite!

## UGLY

There is one popular character whose physical appearance is definitely hideous. He models a mohawk hairdo. His speech is grunted. Feather earrings hang to his shoulders. Thirty pounds of gold, in the forms of bracelets and necklaces, dangle from his husky body. Mr. T, how could you? Notwithstanding, in a magazine poll he was voted Second Best Hunk for 1984. Perhaps he is idolized because he is the physical enforcer for the A Team, a real do-gooder in an evil world. Whatever the reason, there is no doubt that this unusual specimen has earned prime time television rights. Broadway is not without its uglies, either. The junkyard setting of CATS vividly portrays T.S. Eliot's "Old Possum's Book of Practical Cats." Everything is out of proportion: old boxes of cereal, useless tires, and many more discarded odds and ends. There is eerie, electronic music. And tons of cats slink out on stage for late evening frolics. Put all together, the ugly junkyard and the slithering cats have thoroughly captivated audiences. The singing and dancing have provided a wonderful evening of entertainment.

These characters have proven that ugly can be beautiful. They have encouraged people to look within, to the heart, to recognize pleasing qualities. It has long been a struggle for man to look beyond physical attractiveness. But these uglies have broken through the beauty barrier. George Orwell explains, "They had done it, they had done it at last."

Garfield has purr-ge-d the hearts of many.

Joan Rivers' comedy just flows right along!

Mr. T's muscles are accented by all those karats.

Practical cats, dramatical cats, pragmatrical cats, fanatical cats, cratorical cats, delphioracle cats, skeptrical cats!

Definitely a motley crew!

Innovative is an adjective that befits the Class of 1985. These students are constantly working hard, but the activities in which they are involved are not routine; they prefer to be imaginative and creative, to devise the fund-raisers and class functions that are different from their predecessors. And because so many of the functions are new to the school, the students have a lot of fun while participating in the events. Because of the successes they have already met, there is no doubt that the members of the Class of 1985 will be great leaders next year at Chelmsford High School.

The freshmen have made a fine adjustment to their new surroundings — to the staff, the schedule, the building, the upper classmen. Administrators note that this class made the smoothest transition to the high school of any class. The freshmen are also spirited and hard working. Their pot luck supper broke all previous attendance records. The Class of 1987 has made its presence known by active participation in sports, clubs, and school activities.

# THE MAIN OFFICE SERVES STUDENTS AS THE

TO THE CLASS OF 1984

You will hear, as Graduation Day approaches, much advice and many speeches about the challenges that lie ahead for you. Though such advice and such speeches may sound familiar, and perhaps, somewhat trite, the challenges to which they refer are quite real.

It is my sincere hope that your years at Chelmsford High School will have played an important part in preparing you for these challenges. I would also hope that you have learned that truth does exist and that in our society "doublethink" will not exist.

As you graduate, to the echoes of class songs, promises to "Keep in touch," and the familiar strains of "Pomp and Circumstance," remember that the larger world beyond the walls of the building in which you have spent your high school years will need all of the enthusiasm, concern, sense of humor, and sense of purpose that you can contribute to it. Your individuality and individual accomplishments will help mold the future.

It has been my privilege to serve you as your Principal. My good wishes go with you as you leave Chelmsford High.

Dear Seniors,

At graduation time you will be congratulated, feted, challenged, presented with gifts, and advised over and over about your new responsibilities and life's goals and objectives. I have no gifts, no challenges, no advice. All I have is a simple wish that comes from the bottom of my heart — a wish for HAPPINESS. I sincerely wish you the type of happiness that will help you meet your new challenges and goals, fulfill your commitments, achieve success, and be that someone who makes our world a better place in which to live.

# EMERSON HOUSE

Edward J. Guinn  
Dean

Dear Seniors,

As a student many years ago, **1984** represented the distant, horrible future described by George Orwell. One main theme of that novel that I found abhorrent was that "truth doesn't exist." Now that 1984 has arrived, we must accept the challenge of seeing to it that truth not only exists, but that it flourishes and permeates our every fiber: in our personal lives, in business, in government and in world events. Without truth, all else is rendered meaningless. I have confidence that the Class of 1984 will accept and meet this challenge.

Two happy faces at the end of a long day.

In 1984, sports were an important part of life at Chelmsford High school. Through our athletics, whether we participated by performing or by spectating, we were able to experience a new dimension of life. We were exhilarated by our victories and frustrated by our defeats, but through it all we felt a mutual sense of pride — in our school, in our athletes, and in our fans. At Chelmsford High School, sports unified us. As each game, meet, or match began, all differences among students dissolved; all students came together to work toward a common goal. Regardless of the scoreboard, we were always victorious, for we had not failed unless we had not tried. Therefore, at Chelmsford High School, "always, at every moment, there will be the thrill of victories."

The extra curricular activities at Chelmsford High School fulfill a variety of needs. These clubs hold different meanings for various levels of school participation.

What do the activities at Chelmsford High School mean to the students? They mean an accessible outlet to which we can turn. The various activities provide individual students with a situation where they can develop their particular talents.

What do the activities at Chelmsford High School mean to the faculty? For those who advise, they allow the teacher to share a talent with the students. Through this experience, oftentimes a closer student-teacher relationship develops, one that is difficult to establish in the larger classroom situation.

What do the activities at Chelmsford High School mean to the school as a whole? Spirit, unity, and recognition are the key elements that are derived from continuous participation.

The extra curricular activities at Chelmsford High School are a positive outgrowth of the academic life. They are an opportunity where "the inventive and speculative type of mind can find any outlet."

## NATIONAL HONOR SOCIETY

The National Honor Society has as its objectives: the creation of an enthusiasm for scholarship; the stimulation of the desire to render service; the promotion of worthy leadership; and the encouragement of the development of character in students of the secondary schools of the nation. The Society conceives of education as a total product measured by the four dimensions of life: character, scholarship, leadership, and service. The Chelmsford Chapter, established in 1952, elects to membership fifteen percent of the senior class and ten percent of the junior class each year.

## FRENCH HONOR SOCIETY

The French Honor Society is comprised of juniors and seniors who have maintained an A average in French for three consecutive semesters and above average performance in other subjects. New members are initiated each spring at a ceremony well attended by parents, teachers, and administrators.

The French Honor Society offers a language tutorial program and a scholarship to an outstanding senior member. The officers for the 1983-84 school year are: Denise Bellemore and Heidi Eklund, President; Kristen Edlund, Vice-President; Maureen Hart, Secretary; Jennifer Murphy, Treasurer

The members of the Honor Society assist in activities planned for the Venezuelan Exchange, offer tutoring to Spanish students, and plan and participate in the induction ceremony for new members each spring.

## FRENCH EXCHANGE CLUB

The French Exchange Club is the official organization to plan and coordinate the annual exchange of students between Chelmsford High School and Institut Fenelon in Grasse, France. ## VENEZUELAN EXCHANGE CLUB

What is an exchange? It is learning a different language, new words and expressions. It is eating strange foods, meeting new people, making new friends. It is sharing thoughts and feelings.

What makes it possible for all students at Chelmsford High School to share in this kind of exchange? The Venezuelan Exchange Club provides this opportunity. This year the club hosted fifteen students from San Vicente High School in Barquisimeto, Venezuela and sent ten students to Venezuela to represent Chelmsford High School.

Although the exchange lasts for only three weeks, the memories that are shared last forever.

## AMERICAN FIELD SERVICE

Technically, A.F.S. stands for the American Field Service, an organization that sponsors students from all over the world in a foreign exchange program. However, among A.F.S.ers, the program means friendship. It means getting to know each other, and learning to accept people for what they are. A.F.S. is understanding that people everywhere are the same. A.F.S. is a symbol of peace. It is the beginning of the future.

A.F.S. students visiting Chelmsford in 1983-84 are Rita Figuiera — Portugal, Bea Planques — France, and Lotte Ericson — Greenland.

The Debate Team resumed its affiliation with the Massachusetts Forensic League this year. After researching the national topic, "Resolved: That the United States Should Establish Uniform Rules Governing the Procedure of All Criminal Courts in the Nation," the team entered several interscholastic competitions. Debators must be able to research and present evidence on a specified topic through prepared speeches as well as in logical, spontaneous presentations.

Chapter members dedicate their efforts and time to promote these goals and conduct activities in the school and the community that will highlight the serious problems which result from driving drunk. # THE 1984 LION

The Chelmsford High School yearbook, The Lion, is a memory book. It is read by students, their relatives and their friends. It is a probing, sensitive look at life in the school and in the community at this point in time. It must examine the home, community, and extracurricular lives of the students. Furthermore, it must present the issues with which the students deal. These must all be faced honestly, in words and pictures. Producing a good yearbook, one worthy of the time and energy spent in its preparation, is a rewarding experience for the staff. The achievement of this goal, a quality production, demands organization, patience, and a genuine interest in doing the job correctly. The 1984 Lion staff has achieved success!

A special event was participation in the first, annual, town-wide choral concert. Other music department functions included the student recital and spring musical.

A process of growth is experienced by the students at Chelmsford High School which prepared them for diverse experiences in life. This growth process extends beyond the school life of the students; and interaction between the students and the community occurs. Such relationships enable the students to familiarize themselves with the society and add a vital dimension to their developing lives. Numerous businesses of the Chelmsford community offer valuable opportunities for the students. By working, students become acquainted with various occupational fields. The Chelmsford community, interacting with the students, "spreads knowledge outwards from individual to individual, from generation to generation." Such knowledge influences the futures of this generation of students, better preparing them for their lifelong goals.

# A REMEMBRANCE

In words and pictures, we have presented the many dimensions of life at Chelmsford High School. The broad scope has included such areas as academics, sports, activities, and community. But the year 1984 has been made particularly unique by George Orwell. Thirty-five years ago, he forecasted 1984 to be a time of despair, when "men all over the world will lose their most human qualities, will become soulless automatons, and will not even be aware of it." The positive dimension of Orwell's **1984** is Chelmsford's student. In us exists "faith in human progress and in man's capability to create a world of justice and peace." That makes us special, unique in a world that sometimes lacks individuality. The students at Chelmsford High School are not hopeless and resigned; rather, we are responding with greater clarity and greater courage to a world which has needs. We are aware of the world and confident in the dignity and integrity of man. "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain inalienable rights, that among these are life, liberty, and the pursuit of happiness."

As yearbook editors, we hope that you have enjoyed your visual walk into the sunlight. The endeavor could not have been accomplished without the mutual efforts of Assistant Editor-in-Chief Jo Pergola, Layout Editor Karen Hentz, Copy Editor Jonna Labowicz, Sports Editor Kimberly Coursen, Activities Editor Laurin Dinnigan, Art Editor Mary Ellen Steeves, and Business Editor Alyson Sharron. Under the direction of our literary and technical advisors, Mrs. Janice Silva and Mrs. Bonnie Fenton, we have been able to capture and preserve 1984 at Chelmsford High School. George Orwell's manuscript, **Nineteen Eighty-Four**, is a remembrance of things present for future reference. We hope you enjoy these special memories as you continue your journey toward Utopia.
